WHO Situation Report 129 & 141

May 28th

June 9th

Situation in numbers (by WHO Region)

Total (new cases in last 24 hours)

Globally	5 593 631 cases (104 505)	353 334 deaths (4 221)
Africa	89 592 cases (3 777)	2 370 deaths (62)
Americas	2 556 479 cases (60 254)	148 412 deaths (2 584)
Eastern Mediterranean	461 824 cases (12 234)	11 621 deaths (169)
Europe	2 079 924 cases (18 096)	177 331 deaths (1 105)
South-East Asia	227 611 cases (9 088)	6 630 deaths (271)
Western Pacific	177 460 cases (1 056)	6 957 deaths (30)

Situation in numbers (by WHO Region)

Total (new cases in last 24 hours)

Globally	7 039 918 cases (108 918)	404 396 deaths (3 539)
Africa	140 498 cases (5 086)	3 352 deaths (116)
Americas	3 366 251 cases (54 864)	183 950 deaths (2 146)
Eastern Mediterranean	658 614 cases (17 185)	14 913 deaths (311)
Europe	2 303 361 cases (16 801)	184 671 deaths (551)
South-East Asia	378 118 cases (13 922)	10 376 deaths (406)
Western Pacific	192 335 cases (1 060)	7 121 deaths (9)

COVID-19 Laboratory-Confirmed Hospitalizations Preliminary data as of May 30, 2020

Selected Underlying Medical Conditions

Cases & Deaths among Healthcare Personnel

Data were collected from 1,642,455 people, but healthcare personnel status was only available for 339,722 (20.7%) people. For the 71,949 cases of COVID-19 among healthcare personnel, death status was only available for 42,386 (58.9%).

CORONAVIRUS DISEASE 2019

Cases

On March 24, DSHS updated the method of reporting COVID-19 cases in Texas to provide the public with more timely information. The DSHS daily case count now includes all cases reported publicly by local health departments around the state. That change led to the report of an additional 305 cases in the March 24 total.

Corporate IP Questions

- * With the CDC's guidance from May 29th defining exposure of healthcare workers as those that were not wearing a mask and eye protection, has anyone moved to or considering universal eye protection
- * if hospitals have or are planning on opening to visitors again and the criteria that developed to base those decisions on.

Corporate IP Questions

- * Is anyone considering moving some units around or changing their unit type (e.g. from surgical to medical) in the post-COVID era. I know some hospitals are considering using the interruption of service that happened during the COVID-19 crisis as a catalyst to restructure their units. If you are doing so, how is your organization planning to address its impact on NHSN data submissions?

Corporate IP Questions

- Do you intend to submit the following data elements to NHSN starting Friday?
 1. The number of patients who were admitted on the previous calendar day with **confirmed** COVID-19 at the time of admission to an inpatient bed.
 2. The number of patients who were admitted on the previous calendar day with **suspected** COVID-19 at the time of admission to an inpatient bed.
 3. The number of inpatients hospitalized for a condition other than COVID-19 with onset of suspected or confirmed COVID-19 on the previous day and the previous day is fourteen or more days since admission.

Corporate IP Questions

- If so, how are you handling the following?
 1. For patients who were tested positive outside your system and are admitted, are you counting them as confirmed if you do not have a copy of the test result?
 2. For suspected patients: how are you documenting them in your EMR? If a patient is on COVID19 Isolation Precaution orders but has a negative test result, are you counting them as suspected?

NHSN COVID Module Comments

The Three C's

Clean your hands!

- * Wash your hands with soap and water OR alcohol-based hand sanitizer for 20 seconds

Cough etiquette!

- * Cover your nose and mouth with a tissue or inside elbow when coughing or sneezing and promptly dispose of the tissue in the nearest waste receptacle, and immediately perform Hand Hygiene

Clean your environment!

- * Disinfect areas with Oxivir wipes. Make sure to allow surfaces to stay wet for the contact time of 1 minute
